

St. Thomas More Church Liturgical Furniture

Project Description:

This commission was to design the liturgical furniture in the spirit of the new Church building and to provide an altar and ambo that expressed permanence.

The chairs for the celebrant, deacon and altar servers express the inherent hierarchy but form a unified group and by choosing the same European beech construction as the pews there is the reinforcement of the idea so dear to this Church that the clergy and parishioners are one Parish family celebrating together.
